ABOUT ME

+10 years of experience in software development: Project management, coding, and/or UI design.

Entrepreneurial mindset, with a broad vision and future focus. Accustomed to working in remote teams, while always applying agile development methodologies.

Interpersonal qualities:
Meticulous, empathetic, creative, dedicated, persistent, and positive.

A devoted admirer of open and decentralized technologies.

OBJECTIVES

- Build a more just world through decentralization.
- Become a reference in the industry.
- Specialize in AI to increase productivity.

ONGOING STUDIES

Bachelor of Systems - ESBA (2nd y.)
English and Java - Autodidact

LANGUAGES

Spanish - Native
English - A2

OUTSTANDING EXPERIENCES

Resolvit & Claro - React / Front-end Developer

IT - SOFTWARE SOLUTIONS 📅 06.23 - Present - (9M)

- Large-scale migration of the billing module (Claro's ERP).
- Responsive development in React utilizing: TypeScript , React MUI , Module Federation (Micro Front-end), and JEST .
- Requirements analysis, design criteria, & UX in Figma.
- Application deployment using: Bitbucket , Jenkins , & Openshift .
- Agile self-management with Jira, & Confluence (applying Scrum).

Bloyd - React - UI Developer

IT - SOFTWARE SOLUTIONS 📅 02.20 - 06.23 - (3Y / 5M)

- Responsive SPA development in React , using: [JSX | TS] + [Redux , Context , Zustand] + [Sass | Styled Components | MUI].
- UX Analysis. Wireframes + Interface design using Figma .
- Agile self-management with Jira , & Miro (applying Scrum).
- Evaluations of performance with React Profiler . Refactoring.

8-BIT & Kucoin - Lead Project Manager

EXCHANGE - CRYPTO RESEARCH 📅 01.18 - 08.19 - (1Y / 8M)

- I led a team of 27 members focused primarily on crypto-research. I was involved in the strategic planning and execution of the company, conducting market analysis, acquiring new partners, and managing stakeholders.
- I managed projects in close collaboration with the Product Owner, incorporating: Scrum , Jira , & Miro into the workflow.
- Performance metrics were integrated with Hubstaff, Excel & Jira.

Newline - Lead Software Developer (Founder)

ONLINE VIDEO GAME - PC - M.O.B.A 📅 07.13 - 06.20 - (7Y)

- I founded and headed a multidisciplinary international team of 33 members for the development of an online video game.
- I managed the project applying Scrum , using: Jira , & Miro .
- I migrated (from scratch) the Front-end of the latest version of the website, employing: React (JSX), JWT , MUI / SASS , & Redux . The new application achieved performance exceeding 400%.
- I administered the repositories with GIT , & Bitbucket .
- I fully designed more than six versions of the website (including the current one), using: Figma , and Photoshop .
- Handling of relational databases. SQL queries using Navicat .

MAIN SKILLS

FRONT-END:

- JavaScript , JSON , JSX , TypeScript .
- React (Ecosistema: MUI , Forms , Router) .
- SASS , CSS3 , Styled Components , Tailwind .
- Module Federation (Micro Front-end) .
- Global states : Redux , Zustand .
- Unit tests : Jest & React Testing .

SOFT SKILLS:

- Leadership - Remote experience
- Business Intelligence - Analytics
- Proactivity - Independence
- Ingenuity - Innovation, creativity

GESTIÓN DE PROYECTOS:

- Scrum (Jira , Confluence)
- Git (GitHub , Bitbucket)
- Hubstaff
- Google Suite (Sheets ...)
- Miro

MULTIMEDIA:

- Figma , Photoshop
- Camtasia Studio

BACK-END:

- SQL (Navicat)
- Java (Eclipse) - Beginner lvl
