ABOUT ME

+10 years of experience in software development: Project management, coding, and/or UI design.

Entrepreneurial mindset, with a broad vision and future focus. Accustomed to working in remote teams, while always applying agile development methodologies.

Interpersonal qualities: Meticulous, empathetic, creative, dedicated, persistent, and positive.

A devoted admirer of open and decentralized technologies.

OBJECTIVES

· Build a more just world through decentralization.
· Become a reference in the industry.
· Specialize in AI to increase productivity.

ONGOING STUDIES

Bachelor of Systems – ESBA (2nd y.)
English and Java – Autodidact

LANGUAGES

Spanish – Native
English – A2

HIGHLIGHTED EXPERIENCES

Resolvit & Claro - React / Front-end Developer
IT - SOFTWARE SOLUTIONS   📅 06.23 – Present – (9M)
· Large-scale migration of the billing module (Claro's ERP).
· Responsive development in React utilizing: TypeScript , React MUI , Module Federation (Micro Front-end), and JEST .
· Requirements analysis, design criteria, & UX in Figma.
· Federations deployment with: Bitbucket , Jenkins , & Openshift .
· Agile self-management with Jira, & Confluence (applying Scrum).

Bloyd – React - UI Developer
IT - SOFTWARE SOLUTIONS   📅 02.20 – 06.23 – (3Y / 5M)
· Responsive SPAs developments in React , using: [JSX | TS] + [Redux , Context , Zustand] + [Sass | Styled Components | MUI].
· Evaluations of performance with React Profiler . Refactoring.
· UX Analysis. Wireframes + Interface design using Figma .
· Agile self-management with Jira , & Miro (applying Scrum).

8-BIT & Kucoin - Lead Project Manager
EXCHANGE - CRYPTO RESEARCH   📅 01.18 – 08.19 – (1Y / 8M)
· I led an 8-Bit team consisting of 27 members; primarily focused on crypto research. I played a key role in the strategic planning and execution of the company, conducting market analysis, acquiring new partners, and aligning stakeholders.
· I managed the project in close collaboration with the Product Owner, integrating: Scrum , Jira , & Miro into the workflow.
· Performance metrics integrated with Hubstaff, Excel & Jira.

Newline – Lead Software Developer
ONLINE VIDEO GAME - PC - M.O.B.A   📅 07.13 – 06.20 – (7Y)
· I founded and headed an international (multidisciplinary) team of 33 members for the development of an online video game.
· I managed the project applying Scrum, supported by Jira, & Miro .
· I migrated (from scratch) the Front-end of the latest version of the website, employing: React (JSX), JWT , MUI / SASS , & Redux . The current version achieved performance exceeding 400%.
· I administered the repositories with GIT , & Bitbucket .
· I designed a total of six versions of the website (including the current one), using: Figma , and Photoshop .
· I managed our databases using SQL queries with Navicat.

MAIN SKILLS

FRONT-END:
· JavaScript | TypeScript (JS/X | TS/X)
· React (Ecosystem: Router , Forms , MUI)
· CSS3 | SASS | Styled Components | Tailwind
· Module Federation (Micro Front-end)
· Global states : Redux | Zustand
· Unit tests : Jest & React Testing

SOFT SKILLS:
· Leadership – Remote experience
· Business Intelligence – Analytics
· Proactivity – Independence
· Ingenuity – Innovation, creativity

GESTIÓN DE PROYECTOS:
· Scrum (Jira , Confluence)
· Git (GitHub , Bitbucket)
· Hubstaff
· Google Suite (Sheets)
· Miro

MULTIMEDIA:
· Figma , Photoshop
· Camtasia Studio

BACK-END:
· SQL (Navicat)
· Java (Eclipse) – Begginer lvl
