English – A2

OUTSTANDING EXPERIENCES

Bloyd – React Developer – P.O.
IT – SOFTWARE SOLUTIONS   📅 02.20 – Present – (3Y)
- Layout and logic with **React**, using: [JSX | TS] + Redux + SASS.
- **UX** Analysis. Wireframes + Interface design with **Figma**.
- Product backlog management. Control of priorities, criteria of acceptance, and story points, using: **Scrum**, **Jira**, and **Miro**.

8-BIT & Kucoin – Lead Project Manager
EXCHANGE – CRYPTO RESEARCH – BLOCKCHAIN   📅 01.18 – 08.19 – (17M)
- I led a team of 27 members, dedicated to a greater extent to crypto-research. I managed the projects using: **Scrum**, **Jira**, and **Miro**. Product owner. Constant adaptability to change.
- Custom performance metrics, integrated with: **Hubstaff**, & Jira.
- Business intelligence, market analysis, sync of stakeholders.

Newline (Founder) – Multi-disciplinary
PC VIDEO GAME – M.O.B.A – STATE: ALPHA   📅 07.13 – 06.20 – (7Y)
- I headed an international and multidisciplinary team of 33 members in the development of an online video game. I was involved in various areas of the project:
- Managed the project applying **Scrum**, using **Jira** and **Miro**. (P.O.)
- Completely designed more than seven versions of the website (including the current), our updater, and banners ads, using: **Figma** and **Photoshop**.
- I developed (from scratch) the front-end of the latest version of the website. I use: **Sass**, **Jsx**, **Jwt**, **React**, and **Redux**.
- I built the foundations of balance (heroes, skills, items, npcs, etc)
- Database manipulation. **SQL** queries using **Navicat**.
- Manipulation of the client, edition of effects, animations, textures, sounds, design, and complete layout of the lobby (UI).
- I participated in the assembly of the trailer using Camtasia.

SKILLS

PROJECT MANAGEMENT
- **Scrum** – Moderate
